

9th 3DMC | 2024

Automation | Digitization | Data Science

Loughborough | UK

September 24 – 26

Europe's Finest Metrology Event

***3DMC** is where metrology, data science, and production expertise meet to promote innovation in automation, quality assurance, and digital manufacturing.*

Scientific presentations featuring **success stories from end users** and **latest research advances** in industrial metrology

Extensive networking opportunities including **two dedicated evening events** open to all conference attendees and exhibitors

Informative exhibition booths and **hands-on workshops** displaying state-of-the-art technologies from **leading manufacturers** and new **start-ups**

A relaxed and open-minded atmosphere guaranteeing for cross-sector discussions on **new and improved applications of metrology**

Established scientific reputation of the organizing institutions assuring a **superior quality and technology relevance**

Venue, Date and Audience

3DMC 2024 will take place in the **East Midlands, UK** on **September 24, 2024 – September 26, 2024**. This year's host is **Loughborough University**. With world-class facilities and inspiring surroundings, Loughborough promises an unforgettable conference experience for all attendees.

~20 presentations including a keynote, talks, and special interest sessions [topically related to those in our archive](#)

120+ international attendees comprising executive and technical professionals from industry, academia, and applied research labs

Industrial exhibition in a shopfloor environment displaying 3D metrology equipment and specialized software to an experienced and demanding audience

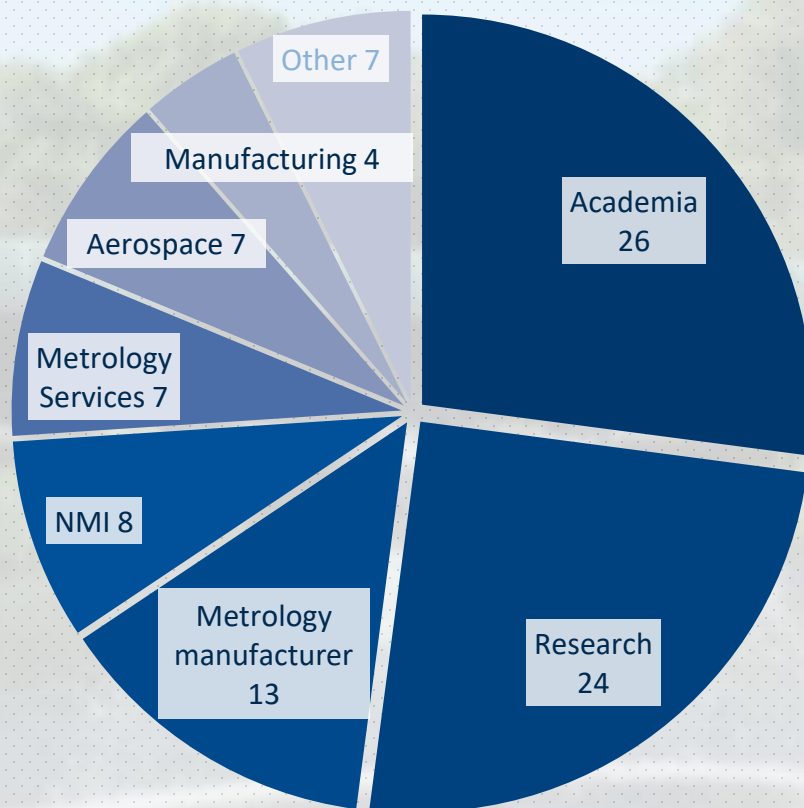

Numbers stated and exhibitors named are based on the 3DMC events held 2016-2021 in Aachen, Hamburg, London and online

Industrial Education & Networking Packages

Company Intro Display

- Company featured on website, social media, and print
- Custom roll-up in exhibition space
- Multi use 10% discount-codes for your partners & clients
- Content for your company's social media
- Job board at live event

£ 490 excl. VAT

Individual

- Pass & certified attendance for one employee
- Meeting room bookings max 2 h
- Includes *Company Intro Display*
- **£ 100 discount for Start-Ups**

£ 890 excl. VAT

Delegation Booth

- Passes & certified attendance for two employees
- 2.0 × 3.0 m² presentation space
- Event support
- Meeting room bookings max 4 h
- Includes *Company Intro Display*
- **£ 200 discount for Start-Ups**

£ 1 790 excl. VAT

Partnership

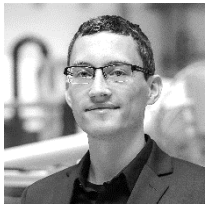

Become one of our event partners

- Passes & certified attendance for three employees
- Bespoke-size presentation area
- Optional evening address
- Event support
- Meeting room bookings max 4 h

Please contact us

Starting at £ 2 490 excl. VAT

Individual marketing, sponsoring and, partnership options are available. Please contact Johannes Brand to discuss individual opportunities.

Delegates and Presenters (Talks & Posters)

Delegate Ticket

- Full access to live 3DMC
- Workshop participation
- Two catered evening events
 - Icebreaker
 - Networking dinner

Group discount options:

2 delegates: £ 990

3 delegates: £ 1 390

5 delegates: £ 1 990

£ 590 excl. VAT

Talk

- Discounted delegate pass
- Selection priority:
 - End user applications
 - Current research topics
 - Technical talks by industrial partners
- About 25 min for talk + Q&A
- Presentation archived
- Option for OpenAccess publication

£ 290 excl. VAT

Poster

- Discounted delegate pass
- Online abstract submission
- Two dedicated presentation sessions at social events
- Poster archived
- Option for OpenAccess publication

£ 390 excl. VAT

Please submit your abstract at <https://3dmc.events> at any time.

Focus Topics for 2024

3DMC welcomes **industrial success stories from end users**, and presentations on **latest research advances**.

Presenters from **academia** may submit an accompanying **open access journal article** in cooperation with our media partner **MDPI Metrology**.

[See Call for Abstracts on the website](#)

All 3DMC presentations are stored in our **archive**.

[See last year's archive](#)

3DMC 2024 will hold **special interest sessions**.

Details will follow soon

- Novel applications of 3D metrology
- Measurement instrumentation development
- Traceability, uncertainty, and standardization
- Dynamic metrology systems
- Large-scale point cloud handling & processing
- X-ray computed tomography
- 3D microscopy and surface metrology
- Metrology for additive manufacturing
- Metrology applications of AI and big data analysis
- Generalized Scene Reconstruction
- Sustainability in metrology
- Augmented and virtual reality
- Metrology software systems and architectures
- Predictive quality and maintenance
